

This is the outside view of the Right side version.

Lettering should be Helvetica 16 pt. on 2 lines like:
 LCS PART# 2002-R OR LCS PART# 2002-L
 RIGHT SIDE LEFT SIDE

Edge finishing: Plate edges should be smoothed, and the edge corners filleted by .02,.02 to remove sharpness.

Please note that this drawing describes 2 parts; A left and a right version. Both have the counter sinks on the 'outside', and thus are opposite from each other. The 'inside' should be stamped or etched with lettering, approximately where noted.
