

Lettering should be Helvetica 16 pt. on 2 lines like:
LCS PART# 2003-R OR LCS PART# 2003-L
RIGHT SIDE LEFT SIDE

Edge finishing: Plate edges should be smoothed, and the edge corners filleted by .02,.02 to remove sharpness.

Please note that this drawing decribes 2 parts; A left and a right version.
Both have the counter sinks on the 'outside', and thus are opposite from each other.
The 'inside' should be stamped or etched with lettering, approximately where noted.

| Notes: | ID | Description | Qty |
|---|---|---|---|
| Dimensions: Inches ± 0.005 Unless Noted | A | Ø 0.203 | 34 |
| Material: 3/16" 5052-H32 aluminum | B | Ø 0.265 | 9 |
| Finish: Black Anodized | 82° countersunk: A for 10-32 flathead. B for 1/4" flathead. | | |
